### USACRC Online Learning

Welcome to the United States Army Combat Readiness University. This program inaugurates a long-term commitment to providing quality and timely force protection information across a broad spectrum to support Army needs around the globe. Delivering tools, resources, and training online this system provides user access anywhere in the world 24/7. Content on this site is designed to provide superior decision-making capability to our force. It is a repository for safety education, training, and other career enhancing tools for US Army, civilian, contractor, Department of Defense, and other government agency employees. Feedback from users will help focus future course development and products for the field.

## Combat Readiness University

*Educating the Force to Own the Edge*

### Launch the Course

Welcome to the Army Accident Avoidance Course. This course is a component of the Army Traffic Safety Program. All Soldiers, civilian employees and contractor employees who drive Army-owned or leased vehicles must complete the training when they start working for the Army. The course features behavior based instruction that targets aggressive drivers and incorporates an on-the-run risk management tool called A.C.T. (a derivative of Composite Risk management) Refresher training must be completed every four years. The course meets the four-year refresher training requirements of Army Regulation 385-55 and Army Regulation 600-55."

**NOTE: To bookmark your progress and exit the course, click on the courseware EXIT button. If you exit the course using the web browser button , the bookmark will not be set.**
